WHAT IS TENSORGRIP?

As far as spray adhesives are concerned, no other product can compare to the strength, tenacity and reliability of TensorGrip®. Available in canisters and aerosols, TensorGrip's innovative formula overcomes barriers presented by traditional bonding methods.

Our adhesive systems eliminate the need to use traditional methods of bonding, that are messy, wasteful and time-consuming. Because TensorGrip® is a spray adhesive you are completely in control of how much glue is used, resulting in an even spray pattern the way you want it without the fuss and inconsistency that comes with using hand-applied adhesive.

Our revolutionary adhesive formulas have been proven to almost completely remove the time spent waiting for glue to tack; where traditionally you would be waiting for up to 25 minutes, TensorGrip® can tack off in as little as ONE MINUTE!

Not only will TensorGrip® speed up your workflow and drastically reduce production time, it is guaranteed to transform the way in which materials are bonded together with consistently superior results!

AVAILABLE CONTAINERS

500ml AEROSOL

This convenient 500ml aerosol is perfect for small applications or for less-frequent users. Small in size but BIG on performance!

22 LTR CANISTER

Our most popular adhesive size; comes equipped with a gun and hose system, on your first purchase, for fast, accurate application. A long-lasting and cost-effective solution available in a 22 litre canister.

220 LTR Jumbo

The largest in our range, suitable mostly for use in large-scale production environments. Can service two production lines simultaneously.

For availability and price, please refer to our pricing checklist or contact a member of our customer services team for further information.

THE FLOORING RANGE

Choosing the product that is right for the job should never be a hassle, so at Tensor we have developed a new labelling system to help make your choosing of the correct adhesives as quick and easy as possible!

Each of our aerosol and canister labels have been colour coded to fit specifically into the market for which they apply to. Importantly, every label now features icons that depict which applications the adhesive is best suited for.

The following applications are carried out efficiently and effectively within our Flooring range.

TOOLS & ACCESSORIES

Black Rubber Hose

Standard black rubber hose for most TensorGrip adhesives. Comes in 4M and 7M options.

Moisture Block Hose

The moisture block hose is required for adhesives where specified. It comes in 4M and 7M options.

Professional Spray Gun

The professional spray gun can be used with any tensor adhesive for up close spray application. The gun requires a tip specific to your adhesive. Please check the adhesive details for tip requirements.

Wand Gun

The wand gun is used for applying adhesive where longer reach is required. 2 lengths are available: 24cm and 70cm. The gun also requires a tip (as above).

Canister Trolley

The canister trolley makes your adhesive highly portable and easy to move as you complete your job.

Aero Trigger

The Aero Trigger fits almost any aerosol can and transforms the can into a professional spray gun, giving precision in your application while reducing strain on your hands.
