Tensorgrip

SAFETY DATA SHEET Tensorgrip S800 Tip Cleaner for Crosslinking Contact Adhesive Equipment

1. Identification		
Product identifier		
Product name	Tensorgrip S800 Tip Cleaner for Crosslinking Contact Adhesive Equipment	
Product number	USA	
Recommended use of the ch	nemical and restrictions on use	
Application	Aerosol Cleaning Solvent	
Details of the supplier of the safety data sheet		
Supplier	Quin Global 5710 F St (402) 731 3636 (402) 731 1473 marketing.us@quin-global.com	
Emergency telephone numb	er	
Emergency telephone	Chemtrec: 1 800 424 9300 (Mon - Fri) 09:00 - 16:00	
2. Hazard(s) identification		
Classification of the substant	ce or mixture	
Physical hazards	Aerosol 2 - H223, H229 Press. Gas, Compressed - H280	
Health hazards	Acute Tox. 4 - H332 Skin Irrit. 2 - H315 Eye Irrit. 2B - H320 STOT SE 3 - H335, H336	
Environmental hazards	Not Classified	
Human health	The liquid may be irritating to eyes, respiratory system and skin. Symptoms following overexposure may include the following: Headache. Dizziness. Nausea, vomiting.	
Label elements		
Pictogram		
Signal word	Warning	
Hazard statements	 H223 Flammable aerosol. H229 Pressurized container: may burst if heated. H280 Contains gas under pressure; may explode if heated. H315+H320 Causes skin and eye irritation. H332 Harmful if inhaled. H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness. 	

Precautionary statements	 P210 Keep away from heat, sparks, open flames and hot surfaces. No smoking. P280 Wear protective gloves/protective clothing/eye protection/face protection. P302+P352 If on skin: Wash with plenty of water. P304+P340 If inhaled: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P312 Call a poison center/doctor if you feel unwell.
Contains	Dimethyl Ether, Mixture

Other hazards

This product does not contain any substances classified as PBT or vPvB.

3.	Compo	osition	/information	on ingredients	
----	-------	---------	--------------	----------------	--

Substances

Mixtures **Dimethyl Ether** 60-100% CAS number: 115-10-6 REACH registration number: 01-2119472128-37-XXXX Classification Flam. Gas 1 - H220 Press. Gas, Liquefied - H280 Acute Tox. 4 - H332 Skin Irrit. 2 - H315 Eye Irrit. 2B - H320 STOT SE 3 - H335, H336 5-10% Mixture CAS number: Proprietary Classification Press. Gas, Compressed - H280

The Full Text for all Hazard Statements are Displayed in Section 16.

4. First-aid measures		
Description of first aid measures		
General information	Remove affected person from source of contamination. Place unconscious person on their side in the recovery position and ensure breathing can take place. Get medical attention if any discomfort continues.	
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention.	
Ingestion	Get medical attention immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.	
Skin Contact	Remove affected person from source of contamination. Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if any discomfort continues.	

Eye contact	Remove any contact lenses and open eyelids wide apart. Only remove contact lenses if the person is conscious, coherent and they can remove them themselves If adhesive bonding occurs, do not force eyelids apart. Continue to rinse for at least 15 minutes. If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.	
Most important symptoms and	effects, both acute and delayed	
Inhalation	May cause coughing and difficulties in breathing. May cause eye and respiratory system irritation. Overexposure may depress the central nervous system, causing dizziness and intoxication.	
Ingestion	Aspiration hazard if swallowed. May be fatal if swallowed and enters airways. Ingestion may cause severe irritation of the mouth, the esophagus and the gastrointestinal tract. May Cause the following effects: Gastrointestinal symptoms, including upset stomach. Central nervous system depression. Nausea, vomiting. Entry into the lungs following ingestion or vomiting may cause chemical pneumonitis.	
Skin contact	May be absorbed through the skin. Product has a defatting effect on skin. The liquid is irritating to eyes and skin. A single exposure may cause the following adverse effects: Dryness and/or cracking.	
Eye contact	Causes serious eye irritation. Burns can occur. A single exposure may cause the following adverse effects: Pain. Conjunctivitis, irritation, tearing. Prolonged or repeated exposure may cause the following adverse effects: Irritation of eyes and mucous membranes. Prolonged contact causes serious eye and tissue damage.	
5.Fire-fighting measures		
Extinguishing media		
Suitable extinguishing media	Extinguish with alcohol-resistant foam, carbon dioxide or dry powder.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
Special hazards arising from th	ne substance or mixture	
Specific hazards	Pressurized container: Must not be exposed to temperatures above 50°C/120°F Containers can burst violently or explode when heated, due to excessive pressure build-up. Vapors are heavier than air and may spread near ground and travel a considerable distance to a source of ignition and flash back.	
Advice for firefighters		
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.	
6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures		
Personal precautions	For personal protection, see Section 8. No smoking, sparks, flames or other sources of ignition near spillage.	
Environmental precautions		
Environmental precautions	Avoid discharge into drains. Contain spillage with sand, earth or other suitable non- combustible material.	
Methods and material for containment and cleaning up		

Methods for cleaning up	Stop leak if possible without risk. Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Avoid the spillage or runoff entering drains, sewers or watercourses. Absorb in vermiculite, dry sand or earth and place into containers. Wash thoroughly after dealing with a spillage.
7. Handling and storage	
Precautions for safe handling	
Usage precautions	Avoid contact with skin and eyes. Keep away from heat, sparks and open flame. Provide adequate ventilation. Avoid inhalation of vapors. Use approved respirator if air contamination is above an acceptable level. Container must be kept tightly closed when not in use. Use explosion proof electric equipment. Avoid discharge into drains or watercourses or onto the ground.
Advice on general occupational hygiene	Do not eat, drink or smoke when using this product.
Conditions for safe storage, inc	luding any incompatibilities
Storage precautions	Keep away from heat, sparks and open flame. Keep container tightly closed. Keep only in the original container. Pressurized container: Must not be exposed to temperatures above 50°C/120°F
Specific end uses(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
8. Exposure Controls/personal	protection
Control parameters	
Occupational exposure limits	
Dimethyl Ether	ur TMA): WEEL ILS ALLA - Workplage Environmental Expedius Level Cuides 1000 ppm
	ur TWA): WEEL:US.AIHA = Workplace Environmental Exposure Level Guides 1000 ppm
Exposure controls Protective equipment	
Appropriate engineering controls	This product must not be handled in a confined space without adequate ventilation. Avoid inhalation of vapors and spray/mists. As this product contains ingredients with exposure limits, process enclosures, local exhaust ventilation or other engineering controls should be used to keep worker exposure below any statutory or recommended limits, if use generates dust, fumes, gas, vapor or mist.
Eye/face protection	Wear chemical splash goggles.
Hand protection	Use protective gloves.
Other skin and body protection	Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapor contact.
Hygiene measures	DO NOT SMOKE IN WORK AREA! Wash hands at the end of each work shift and before eating, smoking and using the toilet. Wash promptly with soap and water if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. When using do not eat, drink or smoke.

Respiratory protection	Respiratory protection must be used if the airborne contamination exceeds the recommended
	occupational exposure limit. If exposure levels are likely to be exceeded, use a full face mask
	fitted with an organic AXP3 filter for short term low level exposures. For long term or high level
	exposures, compressed airline breathing apparatus should be used.

9. Physical and Chemical Properties

Information on basic physical	and chemical properties		
Appearance	Aerosol.		
Color	Colorless.		
Odor	Odorless.		
Melting point	-142°C		
Initial boiling point and range	-24.8°C @ 1013.25 mbar		
Flash point	-41°C		
Upper/lower flammability or explosive limits	Upper flammable/explosive limit: 18 g/100 g Lower flammable/explosive limit: 3.4 g/100 g		
Relative density	0.66		
Auto-ignition temperature	350°C		
Volatile organic compound	This product contains a maximum VOC content of 660.		
10. Stability and reactivity			
Stability	Stable at normal ambient temperatures and when used as recommended.		
Possibility of hazardous reactions	Will not polymerize.		
Conditions to avoid	Avoid heat, flames and other sources of ignition. Avoid contact with the following materials: Oxidizing agents. Reducing agents.		
Materials to avoid	Strong acids. Oxidizing materials. Halogens. Flammable/combustible materials.		
Hazardous decomposition products	Fire creates: Vapours/gases/fumes of: Carbon monoxide (CO). Carbon dioxide (CO2). Hydrogen chloride (HCI). Nitrous gases (NOx).		
11. Toxicological information			
Information on toxicological ef	fects		
Acute toxicity - inhalation			
ATE inhalation (gases ppm)	4,736.84210526		
Toxicological information on ir	Toxicological information on ingredients.		
	Dimethyl Ether		
Acute toxicity - ir	Inalation		
Acute toxicity inhalation 308.5 (LC₅₀ gases ppmV)			

Species Rat

ATE inhalation (<u>(</u> ppm)	jases	4,500.0	
Carcinogenicity			
Carcinogenicity		Does not contain any substances known to be carcinogenic.	
Specific target of	rgan toxici	ity - single exposure	
STOT - single ex	posure	May cause respiratory irritation. Central nervous system depression. Skin and eye irritation.	
Aspiration hazar	d		
Aspiration hazar	_	No data available.	
Medical Sympton	ns	Central nervous system depression. Frostbite. Respiratory system irritation. Skin irritation. Eye irritation.	
12. Ecological Information			
13. Disposal considerations			
Waste treatment methods			
Disposal methods	-	of waste to licensed waste disposal site in accordance with the requirements of the aste Disposal Authority.	
14. Transport information
